FULL STACK DEVELOPER

I'm a passionate Web Developer with a knack for creating dynamic and interactive web experiences. With expertise spanning across Next.Js, Prisma, SQL, MongoDB, Java, C#, Python and a strong foundation in frontend and back-end development, I love turning complex problems into simple, beautiful solutions.

SKILLS

Next.Js	Mongo DB	Java	Typescript
Tailwind CSS	SQL	C#	Three.Js (beginner)
Prisma ORM	SMicrosoft SQL Server	Python	React Three Fiber

PROFESSIONAL EXPERIENCE

Scripters Hub

July 2024 - Present

Full-stack Developer

- Developed and implemented a streamlined process for gathering business requirements, reducing project delivery time by 15%.
- Designed and built scalable web applications using Next.js, MongoDB, Tailwind CSS, and TypeScript.
- Created and integrated a standardized reporting framework, improving visibility of key performance metrics and enabling data-driven decision-making across all organizational levels.
- Collaborated with cross-functional teams to optimize the end-to-end software development lifecycle, from initial concept to deployment.
- Ensured the continuous improvement of application performance and user experience by utilizing modern development practices and tools.
- Worked closely with clients to understand their business needs, translating them into technical solutions that drive efficiency and innovation.

Upwork

June 2024 - Present

Database Application Developer

- Developed custom database solutions using MongoDB and SQL to meet client needs.
- Designed scalable database architectures and optimized performance.
- Collaborated with clients to translate business requirements into efficient data models.
- Provided ongoing support, troubleshooting, and enhancements to ensure high-quality results.
